QUITS RED CROSS

F. P. ROBINSON RESIGNS AS SECRETARY OF CHAPTER

CALL TRUSTEES MEETING

Resignations of Chairman F. R. Anthony and Paul Sisson, of Directors Board, Also Tendered

The election of a new secretary for the Nodaway county chapter of the American Red Cross will be made the order of business at a meeting of the trustees of the society to be held next Friday, March 15, at 1 o'clock at the court house, following the resignation of Fred P. Robinson, who has been secretary since the organization of the chapter last June. Mr. Robinson has tendered his resignation to take effect on the date mentioned. In addition to the resignation of Mr. Robinson, the resignations of Dr. F. R. Anthony, as chairman of the chapter, and Paul Sisson, member of the board of directors, will also be acted on and new officers will be elected to take their places.

The board of trustees for the local chapter is composed of twenty-seven members located at various points over the county and on them will fall the duty of naming new officers to fill the places made vacant by the resignations of the above named men.

With the large number of Red Cross workers, with seven branches and more than forty auxiliaries in the county turning out a large quantity of hospital and refugee supplies, the work in connection with the office of secretary has grown to such an extent that it takes practically all of the time of one person to look after it. The only paid employee in the service of the Red Cross in the county is a stenographer in the office of the secretary. All other officers and workers give their time gratis.

A NEW FLAG FOR CITY POLE
Old One Torn by Winds, Boy Scouts Are Authorized to Receive Funds to Buy a New One

The flag did not float from the municipal flag pole on Saturday and Sunday for the reason that the flag, worn by the weather, was badly torn by the high winds of the past few days, the eyelets being torn out. The Boy Scouts, who have had charge of putting up the flag each day since last summer, have been on the job faithfully, rain and shine. Funds to purchase a flag have heretofore been subscribed by business men and citizens and the Scouts, who are anxious to continue the service, have been authorized to receive subscriptions to a flag fund to be used to purchase another flag. Those who desire to contribute to this patriotic cause are asked to give such amount as they desire to Scoutmaster A. M. Croke at the Democrat-Forum office or to Mayor A. S. Robey at the city hall.

Many citizens remarked yesterday on the absence of flags in the city, as with three flag poles, the municipal pole, the federal building staff and one on the court house, not one of the three flew a flag. The Scouts have already ordered a new flag and will have the old one repaired to use until the new one arrives.

PHONE CO. ELECTS OFFICERS
W. O. Garrett Elected Secretary in Place of Hamlin, Resigned

At the meeting Saturday of directors of the Farmers Mutual Telephone Co., held at the court house, the following officers were elected for the ensuing year: A. H. Hughes was re-elected president; A. S. Watson was re-elected treasurer; and W. O. Garrett was named secretary. Mr. Garrett takes the place of Ed Hamlin, who resigned from the position. No other business of importance was transacted.

The boys left Maryville for Camp Funston on November 7 and remained there until February 9, when they left for Camp Merritt, N. J., and from there to France.

BIGGEST LAND WEEK

REALTY SALES LAST WEEK TOTALED \$664,000

RECORD OFFICE IS BUSY

Extra Clerks Employed to Take Care of the Large Number of Instruments—Big Demand for Farms

Last week set another new mark for realty sales, the transfers recorded totaling \$664,000, an increase over the week before of \$119,000, making the sales of land in Nodaway county for two weeks over one million dollars—to be exact, \$1,209,000.

The largest sale recorded last week was made by Ida L. Persons to Ery Bosch and others, being land southwest of Maryville, which sold for \$42,500.

Along with the demand for land, implement and seed dealers are getting ready for the biggest season they have ever had and Nodaway county this summer will be a big war garden, with corn, wheat, rye and other small grains covering a largely increased acreage. With established prices on most of these there has been an added inducement to grow these crops, while the good prices prevailing for hogs and cattle will also play an important part in the production. Feed and forage crops will be raised this year to a larger extent than ever before.

In addition to the large number of warranty deeds, an unusual number of trust deeds and other instruments were filed for record, necessitating the employment in the recorder's office of extra clerks to keep up with the work.

The following real estate transfers have been reported for the week ending March 9:

2 TALKS BY BISHOP QUAYLE

Prominent Churchman Will Speak at Two Sessions of the Jubilee Campaign Conference Thursday

The announcement that Bishop Wm. A. Quayle of the Methodist church will speak here at the meeting next Thursday when the jubilee campaign in the district of the college at Cameron will be an event welcomed by many Maryville people who are always glad of an opportunity to hear the well known churchman. Bishop Quayle will arrive on Tuesday night and will make two addresses on Thursday, one in the afternoon and another at night.

Bishop Quayle has just returned from a trip through the east where he has been addressing patriotic gatherings and it is indicated that his address at the First Methodist church in the afternoon will be along this line.

The jubilee campaign meeting, the program for which is given in another column, is not for the purpose of taking a collection, but to arouse interest in the campaign for an endowment for the college.

LOVE LETTERS, TOO

BROUGHT BY DRAFT MEN TO SHOW EVASION NOT MEANT

MARRIAGE PROBE IS ON

Young Wife Declares Draft Questionnaire Is Simple Compared With the Questions Asked by Special Agent

"How often did you see your intended before you were married; did you go with her frequently?"

The answer to the question directed at the young man who faced Special Agent Wm. G. Sawyers of the draft board, was taken out of his mouth by the elderly woman who sat by his side. "He went with her entirely too often, according to my notion," she said. "We couldn't get a thing out of either one of them they were together so often."

The young man accompanied by his wife and mother-in-law was being interrogated as to his pre-matrimonial affairs under the order to investigate the marriages of registered men since the draft was instituted to see if any weddings were contracted in order to evade the draft.

The young man, who is a railroad worker in a nearby town, in answer to the question (when his mother-in-law had finished) looked sheepishly at his young wife and acknowledged that for three months previous to the wedding he had seen her every day.

Asked whether he had given her any presents he pointed with pride to the solitaire ring whose brilliant rays were even then dazzling the eyes of the special agent. A number of love letters were also introduced as "evidence" that it was even a serious matter before the selective draft or provost marshal General Crowder was dreamed of.

It was an embarrassing ideal for the young wife, however, who declared afterward that the draft questionnaire in comparison was a first grade primer.

The young railroad worker was one of the first married registrants who claimed exemption because of a dependent wife to be examined this morning under the new order by Special Agent Sawyers. There are forty-eight men who will come under the order.

Attorney Sawyers says that along with the investigation he is conducting he is securing material for a volume to be entitled, "The Secrets of Courtship and Marriage," or "How to Be Happy, Though Wedded." Dependent father to state whether he would make individual use of the information secured.

Purchases J. J. Bishoff Stock and Business on West Third Street—To Consolidate Two Stores

D. E. Hotchkinn today purchased the stock, fixtures and business owned by J. J. Bishoff, adjoining his place of business on West Third street. Mr. Hotchkinn will remove the stock purchased and will consolidate it with his own, continue in business at the above number. The stock purchased included magazines, sheet music, cigars, candy and stationery.

Mr. Bishoff expects to leave soon for Louisiana where he has land interests. His residence here of nearly two years has brought him the friendship and esteem of the business men of the city who will regret to lose him from among their number.

BAKER TO BE BUSY IN FRANCE

Special to The Democrat-Forum.
Washington, Mar. 11.—An extremely comprehensive program is mapped out for Secretary of War Baker now that he is safely landed in France. Officials said today that the things he would do before returning would be to arrange adequate docking facilities for the enormous quantity of American army supplies and trains which must go to the western front, even though to do so may make it necessary for the United States actually to take over and make American territory for the time being additional French seaports. Secretary Baker will also inspect the American battle front and decide with General Pershing the proportion of troops to be sent over, also he will sit with the supreme war council at Versailles and get its viewpoint on the coordination of all forces on the western front. Secretary Baker will remain abroad indefinitely.

WOULD BRING SOLDIERS HERE

A proposal made to the Commercial Club to bring 50 men from Co. B, 356 Inf., to Maryville to participate in a basketball game and a base ball game with teams from the Normal and High Schools on March 16, with a parade in the afternoon has been submitted by Seargt. F. R. Richardson of Co. B in a telegram received this morning. The matter was presented to the directors of the club at their Monday luncheon today and Secretary Claypool was instructed to find out what the plans contemplated before agreeing to furnish a guarantee as was asked in the communication. Many boys from Nodaway and surrounding counties are in the company named. It is believed the men contemplate a trip in the interest of the company and would include Maryville in their itinerary.

luncheon at the Normal in appreciation of her work on behalf of the Red Cross. The Red Cross motif was carried out in the decorations and menu. Invited guests were Mr. Osburn and Mrs. George Palfreyman. After the luncheon Mr. and Mrs. Osburn were guests of the class at the basket ball game to see the Funston five.

In a letter to divisional headquarters at St. Louis, President George W. Simmons, who is now in France in the interest of the work, writes: "Our Red Cross organization here is simply wonderful. Such a group of men was probably never before gathered together in any piece of work in the history of America, perhaps of the world, and will likely never again be equalled—every man willing to forget himself and his own identity and do whatever job is assigned his way, and everyone loyal to the chief. And you may accept my word for it, there is plenty for everyone to do. I thought I was pretty well posted on Red Cross achievements abroad but a few days inspection in Paris alone have convinced me that we have no real conception of it all in America. The size of the thing is astounding."

The Willing Workers shipped to Maryville this week six sweaters, two pairs wristlets, one pair socks, five bed shirts, ten triangular bandages, 25 gauze compresses, 150 gauze wipes, 250 gauze wipes 2 x 2, 145 oakum pads 8 x 12, 775 compresses 8 x 4.

The Harmony auxiliary made week before last 500 compresses instead of 25, as was reported. Mrs. J. G. Harbison is instructor.

Auxiliaries who want reports of their work given publicity are asked to write or phone Mrs. A. M. Crooke, Hanamo 4266, who handles all Red Cross news. Be sure to tell where the auxiliary is located and the nature of the activities. Auxiliary officers are urged to send this information.

At the Clyde and Will Hoshor sale last week the lunch was served by the United Workers' auxiliary. A pig donated by George Collins was sold at auction, bringing \$75.

A press correspondent with the American army in France, in giving an account of the care of the wounded in the hospitals, tells of what is needed for each patient. The articles required are: Six shirts, four pillow cases, two hot water bags, three suits of pajamas, two pairs bed socks, one pair slippers, one bath robe, three wash cloths, four face and two bath towels, also a comfort bag containing the following articles: one tube of tooth paste and tooth brush, one cake of soap and three shirt studs, one spool of white and one spool of black thread, one package of needles and one thimble, six clothes buttons, 16 pins, one handkerchief, one pipe, one pencil, one pad of paper and six envelopes.

The United Workers turned over to headquarters last week 30 triangular bandages, 60 8 x 12 oakum pads, 100 many-tailed bandages, 100 2 x 2 wipes, four refugee petticoats, one sweater and one pair wristlets. These ladies are doing splendid work, devoting one entire day each week to the Red Cross.

The Farmers Club at Lorain school near Elmo gave a hard-time social the other night for the benefit of the Red Cross, clearing \$25, which was given to the Lincoln township auxiliary.

Parnell sent in to headquarters last week 90 triangular bandages, 975 compresses, 80 special 4 x 4 wipes, 5 T-bandages, five sweaters and 2 pairs of socks.

The proceeds from the picture show, "Rebecca of Sunnybrook Farm" which was shown in Maryville Wednesday and Thursday nights of last week for the benefit of the Red Cross, amounted to \$109.03. This money has been turned over to F. P. Robinson, secretary of this chapter.

Rheumatism Back on the Job With its Old-time Fury

No Let-Up In Its Torture.

Pretty soon you will be reaching for the liniment bottle again, for the millions of little pain demons that cause Rheumatism are on the war-path. Winter weather seems to awaken them to renewed fury.

But your Rheumatism cannot be rubbed away, because liniments and lotions cannot reach the disease. It is in the blood, and only a remedy that goes deep down into the circula-

tion, and routs out the disease germs, can rid you of this disabling disease.

S. S. S. has given some wonderful results in treating Rheumatism. Being a purely vegetable blood remedy, it purifies the blood of every germ, and thus removes the cause of Rheumatism. Get a bottle to-day at your drugstore, and start on the right treatment that will get results. Free advice about your case can be had by writing to Medical Director, 26 Swift Laboratory, Atlanta, Ga.

CHAPTER XIX.

On His Own.

Of course Tommy cannot always be producing plays under fire but while in rest billets he has numerous other ways of amusing himself. He is a great gambler, but never plays for large stakes. Generally, in each company, you will find a regular canvasfield. This man banks nearly all the games of chance and is an undisputed authority on the rules of gambling. Whenever there is an argument among the Tommies about some uncertain point as to whether Houghton is entitled to Watkins' sixpence, the matter is taken to the recognized authority and his decision is final.

The two most popular games are "Crown and Anchor" and "House."

The paraphernalia used in "Crown and Anchor" consists of a piece of canvas two feet by three feet. This is divided into six equal squares. In these squares are painted a club, diamond, heart, spade, crown, and an anchor, one device to a square. There are three dice used, each dice marked the same as the canvas. The banker sets up his gambling outfit in the corner of a billet and starts bally-hoing until a crowd of Tommies gathers around; then the game starts.

The Tommies place bets on the squares, the crown or anchor being played the most. The banker then rolls his three dice and collects or pays out as the case may be. If you play the crown and one shows up on the dice, you get even money, if two show up, you receive two to one, and if three, three to one. If the crown does not appear and you have bet on it, you lose, and so on. The percentage for the banker is large if every square is played, but if the crowd is partial to, say two squares, he has to trust to luck. The banker generally wins.

The game of "House" is very popular also. It takes two men to run it. This game consists of numerous squares of cardboard containing three rows of numbers five numbers to a row. The numbers run from one to ninety. Each card has a different combination.

The French "estaminateurs" in the villages are open from eleven in the morning until one in the afternoon in accordance with army orders.

After dinner the Tommies congregate at these places to drink French beer at a penny a glass and play "House."

As soon as the estaminateur is sufficiently crowded the proprietors of the "House" game get busy and, as they term it, "form a school." This consists of going around and selling cards at a franc each. If they have ten in the school, the bankers of the game deduct two francs for their trouble and the winner gets eight francs.

Then the game starts. Each buyer places his card before him on the table, first breaking up matches into fifteen pieces.

One of the bankers of the game has a small cloth bag in which are ninety cardboard squares, each with a number printed thereon, from one to ninety. He raps on the table and cries out: "Lies down, my lucky lads."

All noise ceases and every one is attention.

The croupier places his hand in the bag and draws forth a numbered square and immediately calls out the number. The man who owns the card with that particular number on it, covers the square with a match. The one who covers the fifteen numbers on his card first shouts "House." The other banker immediately comes over to him and verifies the card by calling out the numbers thereon to the man with the bag. As each number is called he picks it out of the ones picked from the bag and says, "Right." If the count is right he shouts, "House correct, pay the lucky gentleman, and sell him a card for the next school." The "lucky gentleman" generally buys one unless he has a miser trace in his veins.

Then another collection is made, a school formed, and they carry on with the game.

The caller-out has many nicknames for the numbers such as "Kelly's Eye" for one, "Leg's Eleven" for eleven, "Clickety-click" for sixty-six, or "Top of the house" meaning ninety.

The game is honest and quite enjoyable. Sometimes you have fourteen numbers on your card covered and you are waiting for the fifteenth to be called. In an imploring voice you call out, "Come on, Watkins, chum, I'm sweating on 'Kelly's Eye.'"

Watkins generally replies, "Well, keep out of a draft, you'll catch cold." Another game is "Pontoon," played with cards; it is the same as our "Black Jack," or "Twenty-one."

A card game called "Brag" is also popular. Using a casino deck, the dealer deals each player three cards. It is similar to poker, except for the fact that you use three cards and cannot draw from the deck is never shuffled up. A man shows three of a kind or a "triple" as it is called. The value of the hands are, high card, a pair, a run, a flush or three of a kind or "triple." The limit is generally a penny, so it is hard to win a fortune.

The next in popularity is a card game called "Nap." It is well named. Every time I played it I went to sleep. Whist and solo whist are played by the highbrows of the company.

When the gamblers tire of all other games they try "Banker and Broker."

I spent a week trying to teach some of the Tommies how to play poker, but because I won thirty-five francs they declared that they didn't "fawney" the game.

Tommy plays few card games; the general run never heard of poker, euchre, seven up, or pinochle. They have a game similar to pinochle called "Royal Bezique," but few know how to play it.

Generally there are two decks of cards in a section, and in a short time they are so dog-eared and greasy, you can hardly tell the ace of spades from the ace of hearts. The owners of these decks sometimes condescend to lend them after much coaxing.

So you see, Mr. Atkins has his fun mixed in with his hardships and, contrary to popular belief, the rank and file of the British army in the trenches is one big happy family. Now in Virginia, at school, I was fed on old McGuffey's primary reader, which gave me an opinion of an Englishman about equal to a "76 Minute Man's" backed up by a Sinn Feiner's. But I found Tommy to be the best of mates and a gentleman through and through. He never thinks of knocking his officers. If one makes a costly mistake and Tommy pays with his blood, there is no general condemnation of the officer. He is just pitied. It is exactly the same as it was with the Light Brigade at Balaklava, to say nothing of Gallipoli, Neuve Chapelle and Loos. Personally I remember a little incident where

cross in some shell-tossed field with tears in his eyes as he reads the inscription. And a little later perhaps bend over a wounded man on a stretcher, patting him on the head.

More than once in a hospital I have seen a titled Red Cross nurse fetching and carrying for a wounded soldier, perhaps the one who in civil life delivered the coal at his back door. Today she does not shrink from lighting his flag or even washing his grimy body.

Tommy admires Albert of Belgium because he is not a pusher of men; he leads them. With him it's not a case of "take that trench," it is "come on and we will take it."

It is amusing to notice the different characteristics of the Irish, Scotch and English soldiers. The Irish and Scotch are very impetuous, especially when it comes to bayonet fighting, while the Englishman, though a trifle slower, thoroughly does his bit; he is more methodical and has the grip of a bulldog on a captured position. He is slower to think; that is the reason why he never knows when he is licked.

Twenty minutes before going over the top the English Tommy will sit on the fire step and thoroughly examine the mechanism of his rifle to see that it is in working order and will fire properly. After this examination he is satisfied and ready to meet the Boches.

But the Irishman or Scotchman sits on the fire step, his rifle with bayonet fixed between his knees, the butt of

prayer, hoping that one of his strays will get some poor unsuspecting Fritz in the napper hundreds of yards behind the lines. It generally does; that's the reason the Boches hate the man from Erin's Isle.

The Saxons, though better than the Prussians and Bavarians, have a nasty trait of treachery in their makeup.

At one point of the line where the trenches were very close, a stake was driven into the ground midway between the hostile lines. At night when it was his turn, Tommy would crawl to this stake and attach some London papers to it, while at the foot he would place bits of bully beef, fags, sweets, and other delicacies that he had received from Blighty in the ever looked-for parcel. Later on Fritz would come out and get these luxuries.

The next night Tommy would go out to see what Fritz put into his stocking. The donation generally consisted of a paper from Berlin, telling who was winning the war, some tinned sausages, cigars, and occasionally a little beer, but a funny thing, Tommy never returned with the beer unless it was inside of him. His platoon got a whiff of his breath one night and the offending Tommy lost his job.

One night a young English sergeant

crawled to the stake and as he tried to detach the German paper a bomb exploded and mangled him horribly. Fritz had set a trap and gained another victim which was only one more black mark against him in the book of this war. From that time on diplomatic relations were severed.

Returning to Tommy, I think his spirit is best shown in the questions he asks. It is never "who is going to win" but always "how long will it take?"

(To be continued.)

"Judging from the letters my boy writes home from camp," said the father of a soldier today, "I reckon he and Pershing are just about dividing time running this war."

An engine that runs with softness, due to the now noted "Hot-Spot" and "Ram's-Horn" Manifold—Chalmers features

In the days of yesterday, "roar" and "wallop" were the terms used to define an engine's power.

Today, it is the softness of power, the controllability of it that fascinates.

It is a new kind of power to many, brought to public attention through the famous "Hot-Spot" and "Ram's-Horn" Manifold of the Chalmers.

For here the gas is heated, and "cracked-up" at the throat of the carburetor by the "Hot-Spot" and then rushed quickly via the "Ram's-Horn" Manifold into the combustion chambers.

It is "toasted" so nicely, "pulverized" so fine, that the instant after sparking there is well-nigh no waste of gas.

Little of power comes out of the exhaust. All the power comes out of the rear wheels—and such pleasing, well-harnessed power, that your enthusiasm for driving reaches a new peak.

TEACHING PENNIES CARE OF SELVES

IS SALIENT MOTIVE BEHIND THE
THRIFT MOVEMENT AND WAR
SAVINGS PLAN.

MAY FORGET VALUE OF PENNY

Stop and Think What the Small Coin
Means in the Saving of World
—Must Master Self to
Master World.

St. Louis.—Teaching the pennies to take care of themselves is one of the salient motives behind the thrift movement and War Savings propaganda, according to Hon. Charles M. Hay of the speakers' division of the war savings campaign for Missouri. Mr. Hay represented Callaway County in the Forty-seventh General Assembly.

In a recent address before the members of the St. Louis Chamber of Commerce, Hay declared there had never been a finer opportunity afforded to the people to sacrifice, be patriotic and save at the same time. He explained the working of the War Savings Certificate, in which people are taught thrift and at the same time contribute to one of the important factors in winning the war.

Forget Value of Pennies.

During the course of his remarks Hay asserted the average business man, such as those who are members of the Chamber of Commerce, forgets the value of the penny, the nickel and the quarter, and advised them to stop and think a minute of what the small coin means in the savings of the world.

"I realize that we rebel against the doing of small things, such as the saving of pennies, nickels, dimes and quarters. It's the big thing, the heroic thing, that grips us, but if we are to win this war and find ourselves real masters of the world we must first master ourselves—our desires, our ease, our appetites, our passions, our indulgences. We must eliminate non-essential things, harmful things in our personal and business life; we must organize ourselves for efficiency. So far our work of giving in the war has been somewhat of an ecstasy and we have been carried away by the excitement, the novelty, the fashion of it. We'll soon have to work and give out of our sorrow, and hardship, and, mayhap, out of our extremities.

"But, remember, the more saving we are now in the midst of plenty the less heavy the burden in the later days. If during the year 1918 every man, woman and child of America would save 5 cents per day the entire issue of the \$2,000,000,000 War Savings Certificates would be taken up. The purchase of a Thrift Stamp per week by every person would make up \$1,524,900,000 of the issue.

First Step Toward Peace.

"The first step necessary for the establishing of peace—the sort of peace the world must have if life on this earth is to be worth while—is absolutely and unconditionally to get the Kaiser.

"But we can't get the Kaiser by mere words. These we have tried through long months, and years before we entered the war. Now we must win with the cruel weapons chosen by those who began this war. To win we must have men; men of blood, mind, soul; men strong in body, true in heart, loyal in spirit; men worthy to live; men ready to die. These, by the millions, have laid their lives upon their country's altar.

"To equip and maintain them we must have money, money by the bil-

lions. That money must come from every quarter, it must come from every pocket in the land. In the presence of men who stand before the cruelest, bloodiest war demons the world has ever known and say, 'Here is my blood, pierce it if you will; here is my blood, let it if you will; I dedicate my blood, my heart, my life, my all, to the democracy of my country and of the world'—in the presence of these, I say, every man left behind in the security and comfort of his home and his office should say, 'Here's my pocket, go through it; here's my bank account, check on it. I dedicate my savings to the democracy of America and of the world.'

War Certificates Explained.

"War Savings Certificates may be obtained at any bank or postoffice or at other authorized agencies by anyone who purchases one or more War Savings Stamps. When you buy a stamp the certificate, containing places for 20 stamps, with your name and address, will be issued to you. Each War Savings Stamp is worth \$5 Jan. 1, 1923, and costs \$4.12 in January, 1918, and 1 cent more for each month in 1918, reaching a maximum price of \$4.23 in December, 1918, at which time the time for purchase expires. The amount paid the holder Jan. 1, 1923, will equal the amount paid, with 4 per cent interest on the average price for 1918, compounded quarterly.

"It is provided that not more than \$100 worth of such stamps can be bought by one person at any one time, and the maximum amount any one person can purchase for the entire period is \$1,000 worth.

"The War Savings Certificates are not transferable. Hence, in case of loss by the holder he can protect himself by making application at the post-office where it is registered, but each stamp thereon must be registered. If a purchaser wishes to surrender his certificate prior to Jan. 1, 1923, he will be repaid the amount paid in, with 3 per cent simple interest thereon.

"Today is the day of the saving that may make this the day of our salvation."

Thrift Stamps are sound economics, finance and education.

The government of the United States is offering the safest investment in the world and one which is within the reach of everybody, and through this investment every man, woman and child in the United States will be able to do his part toward financing the great world war for liberty and democracy.

During the last six months the growth of the United States army has been phenomenal, expanding from 307,000 officers and men to 1,230,000. To maintain this army will require billions of dollars, which must be supplied to the government from every source. Through the thrift propaganda and war savings plan every person in the United States can aid the stupendous army.

A single Thrift Stamp—25 cents—will buy a tent pole or five tent pins, a waist belt or hat cord, shoe laces and identification tags; two Thrift Stamps will buy one trench tool, one pair woolen gloves; four Thrift Stamps will buy two pairs canvas leggings; six Thrift Stamps—\$1.50—will buy five pairs woolen socks, three pairs summer drawers, summer undershirts; 12 Thrift Stamps will buy a steel helmet to protect some soldier at the front; one War Savings Stamp will buy 100 cartridges, another will buy a cartridge belt, a scabbard for a bayonet; four War Savings Stamps will buy a

rifle for some soldier at the front fighting for the cause of liberty; three and one-half War Savings Stamps will buy three pairs of woolen blankets for the comfort of the man in the trenches, and two and one-half War Savings Stamps will buy a gas mask for the protection of some mother's boy from the deadly attack of gas; three War Savings Stamps will buy an overcoat or two woolen service coats. Two War Savings Stamps will purchase two pairs of woolen breeches or two flannel shirts.

St. Louis and Missouri are already far in the lead in the sale of Thrift and War Savings Stamp organization, publicity and advertising. The thrift propaganda has received the hearty endorsement and co-operation of the city and rural public schools, as well as the parochial and private schools in the cities and throughout the state. Every public school teacher in Missouri is engaged in propounding the thrift propaganda to help pupils in a selling campaign. The stamps are delivered to the school teachers by the mail carriers in both the city and rural districts.

WAR MARCH BY DENNI

"The Nation's Awakening," a Spirited French Composition

Lucien Denni, the young Kansas City composer, has written and published a stirring patriotic march entitled, "The Nation's Awakening." Under his royalty contract it is provided that part of the proceeds go to several war funds of the United States and the Allies. Mr. Denni was born in Lille, France, and has brothers and cousins now fighting in France. His new march was inspired by the crisis that confronted France, and America's awakening to its duty as a savior of republics. The music is spirited and warm with emotional passages characteristic of French composers.

TESTED 700 EARS OF CORN

Superintendent Bert Cooper is in receipt of a letter from the secretary of the Guilford high school class, showing what the pupils of the school are doing in the way of testing seed corn and making war bread. The letter follows:

Guilford, Mo.
March 7.
Mr. Bert Cooper,
County Supt. of Schools,
Maryville, Mo.

Dear Sir:—We thank you for your prompt reply to our inquiry regarding the sugar beet seed. We have received the bulletin you mentioned and seeds for distribution among the high school students from the department of agriculture.

The following students of Guilford high school have made war bread: Emma Olsen, May Fowler, Grace Felker, Luella Harmon, Mamie Torrance, Hazel Pugh, Lillian Lockart, Gletha Carter, Lulu Wilson and Ottie Meeker.

We have had samples of this bread at school and it was found to be delicious.

We have tested 700 ears of corn in our high school laboratory and will test ten bushels next week. A large number of students in the high school are testing corn at home. All the students in high school have made one or more seed corn tests. The following names are a list:

Dalhmon Reiser — rag doll and sawdust.
May Fowler—Joe Nailer.
Grace Felker—Joe Nailer.
Eva Clayton—sawdust and rag doll.
Hazel Pugh—rag doll.
Emma Olsen—rag doll.
Lester Brittain—sawdust, Joe Nailer and rag doll.
Gletha Carter—rag doll.
Charley Felker—Joe Nailer.
Irene Brittain—rag doll.
Ottie Meeker—rag doll and sawdust.
Grace Anderson—rag doll.
Lester McClanahan—rag doll and Joe Nailer.
Ira Young—Joe Nailer, sawdust and rag doll.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

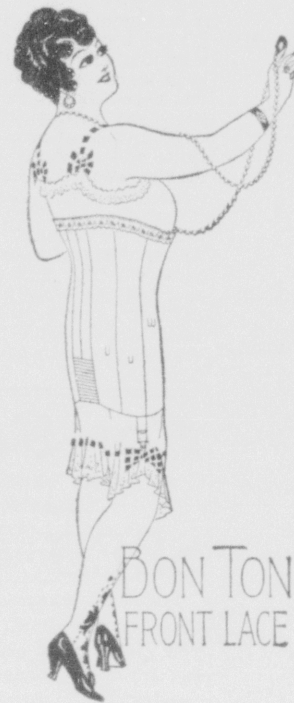

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

"Who Will Win
This Battle?"

Your kidneys are the filters of the body. If they become inactive and fail to eliminate the waste matter, they are apt to throw the whole mechanism of the body out of order, thus toxic poisons can accumulate in the system and be as deadly as snake venom.

Besides causing the minor ailments of rheumatism, sciatica, lumbago and backache, neglect of the kidneys is apt to develop into more serious diseases, such as stone in the bladder.

Rid the body of toxic poisons—clean the bladder and kidneys and cure the twinges of rheumatism with Anuric (double strength) and you win the battle of life.

Anuric was first discovered by Dr. Pierce, and has benefited thousands of sufferers as well as appeased and eliminated the ravages of the more serious kidney diseases. Now procurable for 60 cents at any up-to-date drug store, or send Dr. V. M. Pierce, Invalids' Hotel, Buffalo, N. Y. 10c for trial pkg.

HANNAH, Mo.—"I feel very grateful to Dr. Pierce for putting so wonderful a medicine on the market as Anuric. I have been ill for four years with a complication that the doctors have been unable to fathom. Even specialists have failed to relieve me. My body has been racked with pain continuously and eventually the water became thick and dark. None of the doctors ever mentioned kidney trouble, but for some time I have suspected that the kidneys were at the root of all my misery, so when I learned of the Anuric Tablets I determined to give them a trial. That was only a week ago, but the secretion has cleared up perfectly and I feel so much better that I am certain I have at last found the right medicine."—N. D. Russ, 1019 Lyon St.

To Inspect New Fire Truck.
E. Shields, representing the Obenchain-Boyer fire truck company of Logansport, Ind., is in the city today with several members of the city government of Brookfield, Mo., who came to inspect Maryville's new fire truck.

Miss Mamie Linneman of Kansas City spent Saturday and Sunday in Maryville with her parents, Mr. and Mrs. William Linneman.

IT STOPPED
MY SUFFERING

Said Mrs. Jaynes, Speaking
of Lydia E. Pinkham's
Vegetable Compound.

Anderson, S. C.—"I got into an awful condition with what the doctors said was an organic displacement. I would have pains so badly that they would have to put hot clothes on me and give me morphine. The doctor said I would never be any better without an operation and I would never have any children without it. A neighbor who knew what your medicine would do advised me to give Lydia E. Pinkham's Vegetable Compound a trial. I did so and it made me a well woman and the next September I gave birth to a healthy baby boy."

—Mrs. SALLIE JAYNES, 37 Lyon St., Anderson, S. C.

The letters which we are constantly publishing from women in every section of this country, prove beyond question the merit of this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound.

James Tobin, who was called to Maryville by the death of his grandmother, Mrs. John Vaughn, left today for Camp Funston.

John Coleman, night policeman, has resigned his position and will go to St. Joseph to locate.

Drove to St. Joseph.

Mr. and Mrs. Harold Bellows, Mr. and Mrs. Dale Bellows and Miss Ruth Montgomery drove to St. Joseph yesterday evening.

Dr. Robert King of Maitland was a Maryville visitor Saturday and Sunday.

PENETRATE GERMAN LINE.

Special to The Democrat-Forum.
With the American Army in France, March 11.—A mixed force of American and French troops penetrated the German position to a depth of a thousand yards in three successful raids on the Champaign front on Saturday.

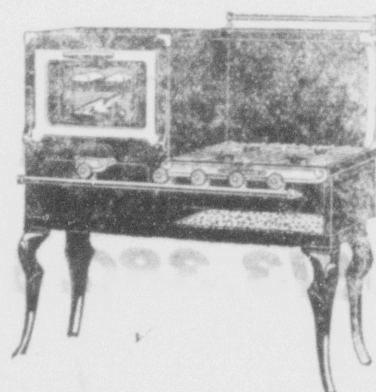

D. R. Eversole & Son

WE received this morning by express a number of beautiful New Silk Dresses, Coats and Suits. With an unusually early Easter you are probably ready to decide on that Suit, or Coat and Dress, that you have been thinking about.

The Spring Coats are very smart with new features that make them quite out of the ordinary run of Spring Coats. All the new shades of Blue, Pekin, Liberty, French and of course Navy, are to be found in our Suit Section generously sprinkled with many novelties.

A shipment of very fine Blouses are due and we invite an early inspection. No woman ever has enough Blouses. We are fortunate in having a good line of sizes whose price is in the range of everyone. Our Blouse shop is a very attractive department in this store because we specialize in them. Each express brings new things and D. R. Eversole & Son invite an early look at them. We are always glad to show you, whether you buy or not.

Our buyer, Mr. Ralph Eversole, will return tomorrow and will be very glad to tell you of the latest things New York is showing.

The Detroit Vapor Stove

We cannot urge too strongly the advantages of the Detroit all-purpose summer cook stove. The fuel administration has endorsed the use of oil stoves as an added economy and an added fuel saving measure.

FROM THE STANDPOINT OF EFFICIENCY there could not possibly be a stove easier to use or more direct and positive in its performance. It uses either gasoline or oil—forming a gas which burns with an intense heat, right up under the cooking where it does its work without loss of heat and as quickly as desired. It can be regulated to burn just as required.

FROM THE STANDPOINT OF ECONOMY it stands at the front of oil stove construction—because it takes less fuel than any other stove and because it uses the fuel that happens to be the least expensive—it is not effected by monopolies.

WE HAVE CHEAPER OIL STOVES, TOO—but no better ones. Let us show them to you.
